Brief Description of the grant: (No more than 2 – 3 paragraphs) This project focuses on infusing technology into the curriculum, by pairing students with teachers to assist the teachers with the technology component of lesson plan design and implementation.

The primary delivery system is the Generation Yes program. This third party online program acts as a facilitator in assisting in the creation of technology based lessons. A educator proofs the lesson plan and provides feedback to the students who are designing the lesson. The student may or may not be a part of the teachers regular class.

Description of Professional Development Activities (25% of grant is for Professional Development):
Generation Yes, Study Island, and utilization of ASSET training opportunities, based on the 360 results.

of Schools Impacted by Grant: 3

of Teachers Impacted by Grant: 30 approximately

Math Initiative Focus: We will be using funds to purchase Study Island, to provide for AIMS preparation, and to assess our students' area(s) of weakness, prior to the AIMS testing, to enable us to meet any deficiencies they have in mathematics. We are coordinating other funding sources with the ED Tech funds to improve our students math performance.
